THE Howard association reported for yesterday 66 new cases, 40 of them being outside of the city. The Board of Health reports for yesterday 33 deaths, 20 of then in the 11 whites, and 13 in the suburbs, all white.

IN CONSEQUENCE of the disastrous failure of the bank of the city of Glasgow, for fifty million dollars, a general uneasiness prevails in British mercantile circles and a wide-spread distrust. The cotton-spinners' region is befogged and great distress prevails. The Messrs. Greenwood, of Blackburn, are about to close their mills. More than half the factory population of Blackburn is unemployed, without the slightest hope of improvement in business, and the chances are that many ther mills will close. Fifteen hundred hands in the Sunnyside mills, at Bolton, have been thrown out of employment as a f the strike of "the twisters."

THE collection of clothing for the south still being | prosecuted as vigorousin New York city as when first suggested a few weeks ago. Thousands boxes of clothing, hats, caps, boots, shoes and underclothing for both sexes and all ages have been accumulated, and the entingsm attending the work has been such that idies with tearful eyes have expressed nselves in no measured terms of indignaon because they were overlooked by the persons commissioned to go from house to Moscow has four or five convalescents.

ON BOARD THE HOWARD RELIEF TRAIN, october 15.—Grand Junction has twenty cases a town, and seven in the country. Dr. T. E. Prewitt and one of his children are considered by Dr. Dowell as in a very critical condition. Mr. William Pledge, the express agent in This makes the total cases to date 7057, and this town, died on Sunday. Two deaths occurred in the country on Monday There has been only one physician here until yesterday, when Dr. S. H. Collins arrived, he having been sent out by the Howards, This town is abundantly supplied with both medicines and stores. Mr. J. W. Riddle, of the New Orleans Howards, has charge of the commissary department, and he seems to give entire satisfaction. The total number of deaths reported from the commencement of the epi-

lemic is seventy.

I um pleased to chronicle an abatement of the fever at Lagrange. But one death, Samuel Waddle, and no new case has been re ported for the past forty-eight hours. M. P. Pulliam, president of the Howard association, Miss Booth Tucker and William Lipscomb are considered dangerous, but it is hoped that they may speedily recover. Mrs. Rosine's family are convalescent, and will be about in a few days. Drs. Franklin and Bates, the home physicians, deserve all praise for the heroic manner in which they nave acted during this trying ordeal. They have never had the fever, and it is earnestly hored that they may escape.

Dr. Collins, who was sent to Lagrange

and surrounding country, ran the blockade of Michigan City, Mississippi, yesterday, and reports that eight cases of yellow-fever had made its appearance in that town. During his illness he was faithfully attended to by the best of all nurses, his wife. When the Howard association took the case into their bands they did everything in their power to alleviate his sufferings, and well did they perform their self-imposed duty. Had it not been for the extreme old age of Mr. Fisher, he lacking but little of be ing four score (the time alloted to man), we think his life would have been saved. The olored woman, Fannie Gohen, is at present ying in a very critical condition, and cannot ive the day out. Henry Harrison is doing very well to-day, and by careful nursing we think he will be able to pull through. These cases are from Decatur. We have had about thirteen cases to date, all refugees, not a single case having originated here. Surely Huntsville has been blessed.

Rossville, October 12.—Your reporter on the Howard train was misinformed here. Mr. Ras Carrouth, now convalescent, is the only white one, but what has moved his bedding out of this place. We had two doctors here one of them, Dr. Yancey, left. Dr. Lipscomb is wherever duty calls-sometimes here and sometimes in the country—as his practice extends for miles. He sent his family away some time ago, but remained himself, doing all he could. As to the sick, we have had two refugee cases; one died; the other is in a fair way to get well. While the citizens have had four deaths from fever, one now sick in the country and four convalescing; business is almost suspended; one store opening a few hours in the day. REFUGEE.

Stewart, Gwynne & Co. five are convalescing—one, James Thomas, died. He met his death by by his own imprudence; he could not be controlled, and got up while his nurse was asleep, went to the well and drank a gallon or more of water, and of course was soon put under the sod. Miss Weaver, daughter of the late J. B. Weaver, has entirely recovered. I was mistaken in thinking that fear had anything to do with the taking off of this good man and his wife. They had genuine yellow-fever of the mest malignant type, and they met death with calm, christian fortitude, without fear or alarm. It will be some consolation to his friends to know that he had his mind to the last moment, and that he met death with the courage of a christian gentleman. Our neighboring village, Raleigh, has been stricken hard by the plague; over thirty-five deaths there sin the twentieth of August, among them some of the oldest inhabitants of Shelby county Mr. Sam Allen and Mrs. Only. King's family are all down except himself; he buried his daughter, Miss Amanda, and his granddaughter, Miss Docea Geer, yesterday. God help us! When and where will this end? I see that some one has been throwing dirt at Dr. Duncan, saying he had orsaken his patrons. No one that knows George Duncan believes one word said against him. I venture to assert that he has never failed to do his duty in one single in-stance, and the people of Raleigh cannot be made to believe otherwise. I noticed in yesterday's Ledger an interview had with one Ex-Governor Warmoth, of Louisiana, in which he is made to say that the south still hates the north. Now, as a "wearer of the gray" in our late unpleasantness and in behalf of our southern brothers, I say that it is not true. We do not hate our prothers of not true. We do not hate our brothers of the north; they have shown themselves to be true friends in our time of need, and I am sure in every southern heart their deeds of kindness are cherished and appreciated. No; we love our brothers of the north, but we do pity and scorn such creatures as Ex-Governor Warmoth, and can afford to treat them with contempt. The APPEAL of this morning is more cheerful.
